The democrats referended but failed to recall.

It's up to the democrats to make us a state. Will they do it?

We knowed them durned Halley comets didn't mean no good politically.

There are a great many people very much worried about Uncle Joe Cannon—he doesn't seem to be included among those worrying.

Since it has been widely advertised that T. R. gets a dollar a word for merely editin' many mere financiers wish to break into the newspaper business.

Senator Lorimer was conspicuously among those not present at the recent banquet given by the Hamilton club in Chicago, and at which Roosevelt said things.

Capt. Hobson shows indications of wanting to whip the Japs again. Hobson is bound to have a war scare scheduled about the time people hope he has forgotten himself for a few moments.

The editor of The Sun left Tuesday to lieutenant-colonel some with Arizona's crack regiment, at Atascadero, Calif., for a couple of weeks. The Sun will be a heap better in the meantime and new subscribers will not be turned down.

Colonel Roosevelt has served notice on railroads and corporations in general that he does not want them ever to help elect him. Darn it. Pretty soon railroads and corporations won't be allowed to do anything but merely run measley railroads.

Nic Longworth, who recently gained distinction by acquiring a wife and father-in-law, and who had previously selected a rich family for immediate relatives, unhooked his vocabulary at Uncle Joe Cannon, with the result that he is not now certain whether Alice smokes cigarets or not.

We have met the enemy and we are theirs. We were up in an airship and someone pulled the string. The destitutional convention soon to convene at Phoenix to map out a constitution that will not constitute, will be strongly democratic, etc. The "riff ruff roosters" are now rampant in the land and the "recoil" busted our expectations of daubing another star upon the old flag ere it was flung flopping in the springtime breeze. Any old bonnet will do now for it is evident that we refused a nice, new state-hood.

The snap judgment taken in passing a resolution derogatory to Secretary Ballinger, commending Pinchot, by a few members of the senatorial committee who have fought Ballinger throughout the hearing, while the majority of the committee was not present, is in line with the attitude of the Pinchot cohorts who attempted to pack the conservation congress while sending out dispatches accusing the opposition of attempting to control it. What Glavis "thought" was about all the grounds there were for the hearing. Not a single charge was proven, and there would have been no investigation except for the boosting given it by Pinchot and his money.

Maine has gone democratic with a vengeance. That is something new if not startling.

Ex-Governor Kibbey was among those who went down to defeat on the republican ticket in Maricopa county.

The editor of a local paper is often unjustly censured for his mistakes. The wonder is that he doesn't make more of them. He must deal with all kinds of subjects, give the names, dates, etc. One hour he may be engaged in reporting a religious meeting and the next in drawing a picture of a fight. He must condense and fill with his items several columns, whether events are transpiring to throw up material or not. Count the local items in a paper and imagine how many steps an editor had to take to collect them. The smallest may have cost him a long walk and much effort to reach the fact. When one paper goes to press he must turn his attention to the next one. He makes the rounds in search of news and may not get a line. His local columns stare him in the face and demand to be filled, not with skim milk but with cream of the news events and matters of interest. His bounds are limited, yet he must find in each day and throughout the week, month and year, something of interest to the public.—Winslow Mail.

To Begin on Camp Verde Road

S. R. Clegg, attached to the territorial engineer's office, with a complete equipment, will leave Prescott for Flagstaff to begin the extension of the road from that point to Camp Verde.

In entering the new field, Mr. Clegg states that the work he will direct will be repairing the old thoroughfare. This work, he anticipates, will occupy his time until snow flies. When weather conditions will permit, he will retrace his work and construct the road on permanent lines, establishing a grade that will endure against all climatic conditions.—Tombstone Prospector.

A big mining deal was closed last week by which the Kinney group of mines, situated in Eugene Gulch, were bonded to eastern investors. This group consists of eight patented claims and six claims held by fee simple. They are located in one of the most favored gold districts of Yavapai county and have been developed by John Kinney for the past 12 years until at this time there is plenty of ore in sight to attract eastern capital.

And there may be more water in milk than appears on the surface.
